

Year 5 - Autumn 2 2026

English - In English, we use the story 'Lost Things' as a stimulus to write an adventure story focussing on building character, setting description, suspense and think of word choice to interest the reader. Next, we will research arguments for and against the Titanic disaster to answer the question is the Titanic largely remembered as a triumph or a tragedy?

Maths - As mathematicians, we will focus on building our knowledge and application of times table and division facts. We will calculate square, cubed and prime numbers. Furthermore, we will develop our understanding of fractions to compare and order them, before adding and subtracting them in calculations.

Science - In science, our unit is focused on forces. We will use scientific skills and vocabulary to explore the impact of gravity, friction, water resistance and air resistance.

RE - Our unit is named 'Was Jesus the Messiah?' where we will use a range of extracts to explore and respond to this question and think about how many Christians celebrate Christmas.

Our core value this term is Respect

We will think about how we can show respect to everyone and each other.

Teacher: Mr Blackburn

History—Were the Vikings raiders, traders or something else? We will be looking at when and why the vikings came to Britain, viking trading routes and what was the impact of viking raids.

DT - Our challenge this half term is to research, build and test different types of bridge.

Computing: This half term we will be completing our second catch up unit of work on various aspects of computing as we transition to our new computer scheme.

Music - In music we will be focusing on Three-chord pop: Playing in a band.

PSHE: This half term our unit is called 'Valuing differences' where we will be focusing on celebrating what makes us all unique.

French - We will be focusing on 'French Exploration'

PE - This half term we will be completing striking and fielding with our NUFC coach.
